

Independent medical training

e-oncología started in 2004 as the first platform providing specialist online cancer training in Spanish.

More than 200 professionals

Thanks to our partner organisation network, we can offer our users access to a faculty of more than 200 internationally renowned specialists.

Specialist training

In addition to the Cervical Cancer Program, we offer other 5 programs with 99 courses, some translated into eight languages.

Helping to treat cervical cancer

We are committed to providing up-to-date, quality training to improve the outcome for cervical cancer patients.

+40.000
students
